📄 SUMMARY

AI Engineer & Full Stack Developer with hands-on experience in designing and developing scalable web applications using JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in integrating LLM APIs, prompt engineering, and building AI-powered features alongside RESTful APIs and modern web technologies. Strong foundation in Java, Python, data structures, algorithms, object-oriented programming, and database management. Passionate about building intelligent software solutions, solving complex problems, and continuously learning emerging AI technologies.

🎓 EDUCATION

Bachelor of Computer Applications (B.C.A.), S.S Jain Subodh P.G. (Autonomous) College 2023 – 2026 | Jaipur

- Pursuing a degree focused on computer applications, software development, database management, and web technologies.
- Applying academic knowledge through real-world web development projects.

🧠 SKILLS

Languages

JavaScript, Java, Python

Backend

Node.js, Express.js, RESTful APIs, Authentication & Authorization (JWT, OAuth, bcrypt), CORS, Multer, Environment Variables (.env), Socket.IO, WebSockets

Software Development

Data Structures & Algorithms, Problem Solving, Debugging

AI Technologies

OpenAI (ChatGPT), Google Gemini, Claude, Emergent, Prompt Engineering, LLM API Integration, AI Workflow Design, Function Calling, Structured JSON Outputs

Frontend

HTML5, CSS, React.js, Next.js, TailwindCSS, Axios, React Router, Redux/Context API

Database

MySQL, MongoDB, Mongoose

Tools & Platforms

Git and GitHub, Postman, MongoDB Atlas, Vercel, Render, npm

Concepts

Object-Oriented Programming (OOPs), CRUD Operations, Async Programming (Promises, async/await), API Integration, Responsive, API Testing, Web Design, State Management, Component-Based Architecture, Version Control

📁 PROJECTS

StackPrep (Developer Learning Platform) 🔗

06/2026 – 06/2026

Tech stack: HTML5, CSS3, JavaScript, React.js, Axios, Monaco Editor, Recharts, Node.js, Express.js, REST API, JWT Authentication, Bcrypt, Multer, MongoDB, Mongoose, Google Gemini API, Razorpay, Vercel, Render

- Developed a Full-Stack/Developer Practice Platform featuring DSA coding problems, MCQ assessments, and an AI-powered ATS Resume Analyzer with secure **JWT authentication**, protected routes, and role-based access control.
- Built an online coding environment using **Monaco Editor** with multi-language support, real-time code submission, and an analytics dashboard visualizing coding progress, MCQ performance, and difficulty-wise statistics using **Recharts**.
- Built an AI-powered Resume Analyzer using Google **Gemini API** and **Multer** (PDF text extraction) to generate ATS scores, detect missing keywords, and suggest resume improvements.
- Implemented a dummy **Razorpay payment gateway**, developed a secure **Admin Panel** for managing coding problems, and deployed the application on **Vercel** and **Render** with **MongoDB Atlas** as the database.

Food App (Food Catalog Application) 🔗

11/2025 – 12/2025

Tech stack: React.js, JavaScript, HTML5, CSS3, React Router, Context API, Deployed on: Vercel

- Developed a responsive food application with 20+ food items and category-based filtering using **React.js**. Showcasing various food items through interactive cards.
- Implemented category-based filtering using **React state** management (**Context API**), reducing menu browsing time and improving navigation UX.
- Deployed on **Vercel** with CI/CD via **GitHub integration**, ensuring automatic updates on every push.

Real Estate Website 🔗

05/2025 – 06/2025

Tech stack: React.js, JavaScript, HTML5, CSS3, React Router, Context API, Deployed on: Vercel

- Built a responsive real estate platform featuring property listings, filtering, and reusable React components using HTML, CSS, JavaScript, and React.js.
- Implemented interactive property cards and structured layouts to improve user engagement and browsing experience. Implemented smooth animations using **Framer Motion** giving the website professional feel
- Utilized **React.js components** to create a scalable and maintainable frontend while ensuring seamless performance across desktop, tablet, and mobile devices.

🎓 TRAINING AND CERTIFICATIONS

Full Stack Web Development Training

Prutor@IITK, IIT Kanpur Technology (3 months, 2023)

Certificate Course on Artificial Intelligence

IBM SkillBuild in Advanced IT Skills (2025)

Web Development Training & Internship Program

Acmegrade (3 month, 2025)

Full Stack Development College Training

Subodh College (3 months, 2026)
