SUMMARY

Aspiring **Full Stack Developer** with practical experience in the **MERN stack**, including React.js, Node.js, Express.js, and MongoDB. Experienced in building responsive web applications, API integration, authentication systems, and database-driven solutions. Strong foundation in JavaScript, data structures, and problem-solving. Seeking an opportunity to contribute to scalable web applications and grow as a software engineer.

SKILLS

Frontend : HTML, CSS, JavaScript, React.js

Database : MySQL, MongoDB (basic)

Backend : Node.js, Express.js, RESTful APIs, Authentication & Authorization

Tools & Platforms : Git and GitHub, Postman, MongoDB Atlas

Software Development : Data Structures & Algorithms(basic), Problem Solving, Debugging

Concepts : CRUD Operations, API Integration, Responsive Web Design, State Management, Component-Based Architecture, Version Control, Debugging

PROJECTS

Food App

Tech stack: React.js, JavaScript, HTML5, CSS3, React Router, Context API | Deployed on: Vercel

- Developed a responsive food application with 20+ food items and category-based filtering using React.js. Showcasing various food items through interactive cards.
- Implemented category-based filtering using React state management (Context API), reducing menu browsing time and improving navigation UX.
- Deployed on Vercel with CI/CD via GitHub integration, ensuring automatic updates on every push.

Real Estate Website

Tech stack: React.js, JavaScript, HTML5, CSS3, React Router, Context API | Deployed on: Vercel

- Built a responsive real estate platform featuring property listings, filtering, and reusable React components using HTML, CSS, JavaScript, and React.js.
- Implemented interactive property cards and structured layouts to improve user engagement and browsing experience.
- Utilized React.js components to create a scalable and maintainable frontend while ensuring seamless performance across desktop, tablet, and mobile devices.

Anime store Website

Tech stack: HTML, CSS, JavaScript, React, Jikan API

- Built a live anime web store app using React.js and the Jikan API
- Fetches and displays real-time anime data like titles, genres, ratings, and descriptions
- Built a clean and interactive UI for exploring and searching anime collections

EDUCATION

Bachelor of Computer Applications (B.C.A.),

2023-2026

S.S Jain Subodh P.G. (Autonomous) College

Jaipur

- Pursuing a degree focused on computer applications, software development, database management, and web technologies.
- Applying academic knowledge through real-world web development projects.

TRAINING AND CERTIFICATIONS

- Full Stack Web Development Training** — Prutor@IITK, IIT Kanpur Technology (3 months, 2023)
- Certificate Course on Artificial Intelligence** — IBM SkillBuild in Advanced IT Skills (2025)
- Full Stack Development College Training** — Subodh College (3 months, 2026)
